A Full Line Distributor of Gas and Electric Products –

-Irby supplies more than 650 electric utilities throughout the country. Combined, these companies service more than 30% of all meters in the United States. As a result, we understand the utility industry from point of generation to the end user. We know the infrastructure. We know the technology. We know the regulatory environment. And know how to help you succeed.

-From the wellhead to the meter and all points in between, Irby Utilities offers the right products and the right solutions to meet your needs. Irby stocks leading manufactures to assure quality in everything we do. Our vast inventory prevents interruption in the supply chain with products supporting the Gas Utility market, providing high quality products to specification and on time. Our extensive inventory of Polyethylene Pipe, Meter & Regulating Devices, Valves, Fittings, Flanges, Cathodic Protection and hundreds of other pipeline parts and accessories gives Irby Utilities the competitive advantage to meet all of our customer requirements.
