PA Energy Association Announces 2023 Safety Award Winners

HARRISBURG (June 29, 2023) -- The Energy Association of Pennsylvania has officially recognized 12 companies for outstanding safety performance. Safety is of paramount importance to the Energy Association and its member companies. "We congratulate our members for their continuing commitment to improve safety for their customers and in the workplace," said Terrance J. Fitzpatrick, President and CEO, Energy Association of Pennsylvania. "For three decades, the Association and our predecessor organizations have been recognizing companies for their efforts in safety through the EAP's annual Job Safety Award program."

The statewide electric and natural gas utility company members of the Association's Accident Prevention Committee wish to congratulate the following companies as this year's safety award winners!

The *Safety Achievement Award* recognizes those member companies, each with 100,000 or more hours worked, which reported an exceptionally low incidence rate for calendar year 2022.
