

MARK YOUR 2024 CALENDAR!

Energy Association Electric Operations Fall Event

Monday, October 7 –Wednesday, October 9

Eden Resort & Suites, Lancaster, PA

The place to be for Electric utility front line supervisors, managers, engineers, decision makers and others with an interest in industry issues:

Be there when the EAP's Electric Operations Committees' fall meetings event convenes.

- **The members of the Electric Transmission & Distribution Committee and Electrical Equipment & Protection Committee are working to provide speakers and presentations of interest to the industry during the Tuesday, October 8th concurrent educational sessions**
- **Among planned and developing educational session topics:** *Keynote Speaker PA Public Utility Commission Chairman Stephen DeFrank; Managing Natural Disasters – Flood mitigation study process, Earthquake response, Transmission tower landslide response; Transmission Line Aging Failures and Rebuild Program; FERC 2222 and 2223 Overview and Impacts to Utilities – PJM Interconnection speaker (invited); 3D Mapping; Dynamic Line Rating; Graduate Level Project – Penn State University; Electrification Topic; Manhole Monitoring*
- **A popular aspect with our attendees, the Committees are planning on incorporating sessions relevant to professional practice which would qualify for the PA Professional Engineers continuing education credits requirements**
- **Over the past six most recent in-person events, educational session registrations have averaged 190 attendees**
- **Participants can take advantage of valuable networking at the events activities– during breaks, lunch and a reception in the exhibit hall**
- **The Tuesday vendor expo will showcase the latest technology, and state-of-the-art products/services**
- **Also included are October 8th vendor presentations on new products and trends**
- **Closed session best practice meetings are an important feature** – Benchmarking Session/Grid Reliability Roundtable, Trouble Reports session and a Design and Third-party Attachments Benchmarking session for committee members and utility company representatives will take place on Monday/Wednesday; A Wednesday morning benchmarking meeting is also planned for utility safety professionals and Tuesday afternoon features a closed session Vegetation Management session
